# HP ENVY Ultrabook™ 6-1010ea

## HP recommends Windows® 7.

## More than just a lightweight

**Ultra mobile design without compromise**
Need a notebook that is amazingly thin (19.8 mm, 0.8")? In eye-catching red and black with a brushed aluminium finish and soft-touch details, this notebook means you'll look fantastic without any compromise in performance.

**Light and fast – all day long**
When you're on the road, you want fast, reliable, lightweight computing. Here it is: ultra light – only 2.2 kg – this is the ultimate model. Boot up fast and work up to 8 hours without recharging.

**Unique sound experience with Beats Audio™**
Listen to music the way artists intended with the revolutionary Beats Audio, Subwoofer and 2 speakers. Exposed speaker bar integrated within the display projects audio directly toward users.

**Stay cool with HP CoolSense**
By rethinking the materials, the placement of components and vents HP has products that feel noticeably cooler. Whether you're using your notebook at a desk or on the move, HP CoolSense automatically adjusts to deliver the optimum level of comfort.

**Keep your data safe with HP ProtectSmart**
If you accidentally drop your PC, HP ProtectSmart's accelerometer puts the brakes on your hard drive to protect your photos, music and memories.

**Highly precise multifinger navigation with HP ImagePad**
The HP ENVY PC means you can be quick and accurate, even when you're working under pressure. HP ImagePad provides highly precise multi-touch gesture control – an HD image sensor means you just swipe your fingers for perfect navigation.
